

## **Oliver Harley Macindoe**

### **A Paul Harris Fellow Citation**

*To Oliver Harley Macindoe, who through his Journey of Hope with his friend Xaver Hausner, made a significant contribution to the achievement of the goals of the global Rotary PolioPlus campaign.*

*As a university student you have shown enormous commitment by cycling the length of New Zealand (3300 kilometres) between November 2010 and January 2011 to raise public awareness about PolioPlus and to support club fundraising for the global campaign.*

*Together with Xaver you have worked with dozens of local Rotary clubs and many Rotary members the length and breadth of New Zealand so that more than \$43,000 has been contributed as a result of your Journey of Hope to help eradicate polio from the planet.*

*At every opportunity you have promoted our Rotary message in the news media which covered your journey; you have spoken to and encouraged clubs and Rotarians to take heart from your adventure to strive to do more; you have set an example for young people who wish to become more involved in their community.*

*In everything you have done you have lived the values of Rotarians the world over and you have truly endorsed the Four-Way Test – you have epitomised Service above Self.*

*Oliver, you have been selected to receive this recognition because the Rotary District 9940 believes that you have held up to its members, and those outside of Rotary, the ideal of service in your personal and community life and that you have truly made a difference to the lives of others.*
